

Corporate Responsibility Policy

The Tomato Plant Company Limited must acknowledge its share of responsibility for taking care of its business impacts on the environment.

The Tomato Plant Company shares the vision of Sustainable Design and Construction Strategy and commitment to sustainable development defined as:

“Development which meets the needs of the present without compromising the ability of future generations to meet their own needs”. (Bruntland Commission, 1987)

Similarly, The Tomato Plant Company is committed to a sustainable approach to all its business activities and to a better quality of life for its workforce as well as the communities nearby.

To this end The Tomato Plant Company works towards the following objectives:

- Purchase and use of sustainable materials in a sustainable way
- Minimise waste production by re-using, re-cycling and recovering materials
- Prudent use of natural resources (e.g. water; non-renewable material and energy resources)
- Protect land, minimise pollution and enhance biodiversity
- Protect and enhance cultural heritage.
- Minimise disruption to nearby communities through sensible noise, vibration and traffic management.
- Measure its carbon footprint and implement measures to reduce this figure.

Therefore, The Tomato Plant Company is committed to working in partnership with all clients, local communities and agencies to incorporate sustainable implementation and operation solutions into projects and day to day operations, and to seeking ways to reduce the impact of The Tomato Plant Company on the local and global environment through investing and developing ways of raising the environmental consciousness of the Company community.

Signed

Keith Williams, Managing Director, 01 January 2022
