

## Environmental Policy

Tomato Plant Ltd recognises its responsibilities with regard to environmental protection and recognises the need for company procedures and long-term strategy.

All staff members are required to support the company's environmental policy and where possible and practicable Tomato Plant Ltd will implement environmentally advantageous policies.

Tomato Plant commits to :-

- Only procure new vehicles that comply with the latest EC emission and noise specification
- Control, monitor and reduce the fuel consumption and emission levels of all vehicles. Give due consideration to alternative fuels
- Encourage all employees to have consideration for the environment.
- Ensure that vehicle weights remain within legal restrictions, limiting damage to highways and the environment.
- Encourage road safety and good driving practice by providing a high standard of training and monitoring.
- Encourage greater fuel economy, reducing emission levels, by providing a high standard of driver training.
- Ensure that all waste vehicle oil disposal is carried out by a licensed operator specialising in waste oil disposal.
- Return all used tyre casings to the supplier for disposal in an approved and environmentally satisfactory manner.
- Take all reasonable steps to ensure that any hazardous goods carried are properly packaged in accordance with relevant national and international law.
- Recycle used paper and other material wherever it is possible and practicable to do so.

Tomato Plant Ltd are committed to working with government guidance and legislation to create a more sustainable future.

**As Managing Director of Tomato Plant Limited, I sign below to endorse and approve this policy:**
